## Specializing in Solids Processing Equipment and Materials Handling Equipment since 1983

### CARTER DAY

**Carter Day International** offering SPINAWAY DRYER Centrifugal Drying Equipment for polymers with the most advanced and reliable design on the market including advanced Agglomerate and Dewater Systems. SCALPERATORS for streamer and fines removal from pellets. <http://carterday.com>

**KASON** Screening and Process Equipment, VIBROSCREEN Circular Vibrating Screens, CENTRI-SIFTER Centrifugal Sifters, Fluid Bed Processors for heating, drying and cooling, Cross-Flo Scalping and Dewatering Sieves. <http://kason.com>

**Kek-Gardner**, Horizontal & Vertical Mixers, Kibblers, Cone Mills, Universal Mills, Air Classifier Mills, Rotary Sifters, Blenders. <http://kasonkgi.com>

**CARMAN Industries**, Vibrating Bin Dischargers, Fluid Bed Processors, Vibrating Conveyors, Vibrating Feeders, Densifier, Pile Dischargers. <http://carmanindustries.com>

**RAGE BULK SYSTEMS**, Pneumatic Conveying Systems and components for all types of materials. Dilute and dense phase transfer systems for foods, chemicals, minerals, etc. Complete turnkey system are our speciality. <http://ragebulksystems.com>

**SLY, INC.** TUBE-JET & PLEAT-JET Cloth bag dust filters, IMPINJET and VENTURI wet scrubbers and loading spouts. Pulse-cleaned, reverse air and shaker cleaned dust filters. Wet scrubbers for removal of gases, vapors, dust and odors. Fully retractable bulk materials loading spouts. <http://slyinc.com>

**Solex Thermal Science** Technology for cooling bulk solids that uses 90% less energy. Cooling bulk solids from 2000 Deg C. Heating Bulk Solids using steam, hot water, thermal oil and air. Drying Bulk Solids, Ultra efficient drying and conditioning of grains and oilseeds. <http://solexthermal.com>

**HAPMAN** Conveyors, Flexible Screws, En-Masse Drag, Tubular Drag, Vacuum Conveyors, Feeders, Bulk Bag Fillers, Bulk Bag Unloaders, Bag Dump Stations, Bag Compactors, Liquid/Solids Systems, Lump Breakers and Bulk Material Handling Systems. <http://hapman.com>

**Puritan** offers a wide range of magnetic separation products for capturing, controlling and removing ferrous tramp metal contaminants from products and processing systems. <http://puritanmagnetics.com>

**Clyde Bergemann Power Group** offering Heavy Duty Material Handling System, Extreme Feeders, Perma-Flo Pipe and Fittings, Air Pollution Control for industrial applications and bottom and flyash handling. Air-Gas Handling including dampers, louvers and diverters. <http://cbpg.com>

# SPECS

SOLIDS PROCESSING EQUIPMENT & CONVEYING SYSTEMS, INC.

We also offer a variety of belt conveyors, screw conveyors, bucket elevators, tubular drag conveyors to meet any continuous bulk material conveying need. For batch materials handling we can supply IBC containers for solids, lifting columns, discharge stations and IBC mixers. In addition, we can help with any batch or continuous mixing needs that you have and can help integrate your plant with advanced PLC control systems. Our many years of experience in bulk solids handling and processing will get you the proper equipment for the application.

ARBO Vibratory feeders, Single and twin screw feeders, ARBOflex flexible wall single screw feeders Spreaders, Loss-in-weight belt feeders, Weigh belt feeders, Volumetric and gravimetric control systems, Single feeder and distributed controls, Platform scales.

<http://arbo-feeders.com>

ISL Technologies— Intermediate Bulk Container System (IBC Systems) for powder and granular materials featuring the ISL Cone Valve Design that promotes and controls product flow. IBC Filling, Discharging, Blending and Washing and Drying Systems available.

<http://conevalve.com.sg>

## READCO KURIMOTO, LLC

Continuous Mixing. Continuous Expertise.

Readco Kurimoto, LLC supplies Continuous Mixers to the Food, Chemical, Plastics, and Pharmaceutical industries for the continuous production of products.

<http://readco.com>

**E** MaxFlow  
Mass flow (15-500 tph) in free fall and sliding conditions.

**C** SolidFlow  
Mass Flow (0-20 tph) in free fall and dilute-phase pneumatics.

**D** DensFlow  
Solids Flow Measurement for Dense-phase Conveying

Global Technology Systems Experts for all your Solids Measurements and Application Needs.

<http://onthelevel.com>

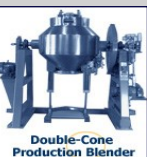

Industrial Air Technology Corp. services the industrial fan market with a complete line of centrifugal fans. Offerings includes backward inclined, industrial exhauster, radially tipped, and high pressure/turbo series fans.

<http://indairtech.com>

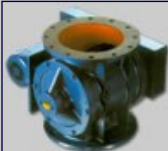

JACOBSON Size reduction systems and equipment including Granulators, Pulverizers, Crushers, Hammermills, Shredders, Lump Breakers, Pallet Shredders, Wood Hogs, and Flake Breakers for nearly any material.

<http://carterday.com/jacobson>

GEMCO has taken the leadership position in blender/dryer manufacturing, offering the most effective methods of increasing process productivity to a wide variety of powder processing industries. Spherical Disc Valves.

<http://okgemco.com>

ROTOLOK Bulk Handling Specialist featuring Rotary Airlocks, Offset Rotary Airlocks, Sanitary Rotary Airlock Diverter Valves, Slide Valves, ROTOFLEX Iris Valves, Butterfly Dampers.

<http://rotolok.com>

LORENZ Pneumatic Conveying Components - Slide Gate Valves, diverter valves, cyclones, couplings, tube and pipe bends, fittings for pneumatic conveying, vacuum and bulk handling systems.

<http://lorenz.ca>
